

Intel Interview Experience - On Campus

May 31, 2023

SASWAT BEHERA

IIIT Lucknow

Roles : - Machine Learning

There was only 1 Interview Round

Question Asked

1. Asked about my NLP Project which was on Sentiment Analysis.
2. Flow of my project and my part in that.
3. Pre-processing steps in textual data.

4. Why the words were converted into numerical vectors?
5. What is Word2Vec? Working of it.
6. Model used in the project.
7. Asked about my other project which was a Machine Learning project on Parkinson's Disease.
8. Steps involved in data preprocessing in this project.
9. Why do we need to pre-process the data.
10. Why do we need to remove outliers?
11. How do we remove/handle outliers?
12. How do we build the model even if we have outliers?
13. What ML models did I use?
14. Why did I use the mentioned ML models in my project?
15. Which model have me best accuracy?
16. **One Coding question on scalar multiplication of matrices.**
